Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 August 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Status of Claims

This is in response to amendment filed 08/20/04.

Claims 6-8, 26-34 are pending.

Claims 1-5, 9-25 and 35 have been cancelled.

Claims 6 and 31 have been amended.

Response to Remarks

Upon further review of the instant claims and the supporting arguments filed 08/20/04, the allowability of instant claims conveyed to applicants attorney, Harry Shubin, on 09/20/04 have been withdrawn. The following rejections apply.

Objection to the Specification

The amendment filed 06/07/04 remains objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material, to claim 31, which is not supported by the original disclosure, is as follows: "The acetic acid can have an OH group of the carboxyl function replaced by a good leaving." Applicant is required to cancel the new matter in reply to this office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

Art Unit: 1626

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 31 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The phrase "in which OH has been replaced by a good leaving" is not supported in the specification.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6, 7, 8, 26, 28, 29, 30, 31 and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. In claim 6, page 4, third line from the bottom and claim 8, page 5, line 3 "fluorine" has been misspelled as ---fluor---.
2. Claims 7, 26, 28, 29 and 30 are improperly dependent on claim 6. The recited claims fails to further limit claim 6.
3. In claim 26, the structural formula should be inserted between lines 4 and 5.

4. In claim 31, lines 3-4, the phrase "a good leaving" renders the claim indefinite. The phrase does not properly define the metes and bounds of the invention because it is not clear what is intended and embraced by a good leaving group.

5. The specific radioactivity recited in claim 32 is missing a unit.

In claims 33 and 34, it is suggested that, for clarity, the phrase "has the formula" be replaced with ---is---.

Claim 27 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
